Subject: Meeting with Curt Grisham/Arkwood Site on Nov 9 - HQ will participate via conf
Date: 11/01/2011 03:34 PM

Last week Mr. Grisham spoke with Dr. Nader Elkassabany re: the PCE standard for New Cricket Spring. Grisham emailed Nader on 10/28 and copied us and he requested that Nader participate in the Nov 9 meeting. Nader's contact info is below:

Nader Elkassabany, Ph.D., Chief
Risk Assessment and Science Support Branch (RASSB)
Antimicrobials Division (AD)
Office of Pesticide Programs (OPP)
Mail Code: 7510P
Voice: (703)308-8783
Fax: (703)308-6466

Today I also spoke with Nadar. His Branch has recently completed the pesticides human health and eco risk assessment for pentachlorophenol. Its likely that Mr. Grisham is looking for someone within EPA to help support his contention that the PCE standard for New Cricket Spring was erroneously established by ADEQ. Nadar will participate in the pre meeting that is planned for next Tuesday so we can discuss internally his role and what we in the Region expect to say regarding the PCE standard. I have suggested in a draft agenda to Gloria that we inform Mr. Grisham of the formal process for him to request that EPA review the standard established by ADEQ - I assume there's some type of process since I don't think Mr. Grisham believes he's gotten very far by voicing his concerns with the standard directly to ADEQ.

I will set up a conf line for Nadar to participate in both the pre meeting next Tuesday and the actual meeting with Mr. Grisham at 10 am on Nov 9.
